

CONSTRUCTION UPDATE NOTICE

Weeks of: August 15, 2016 and August 22, 2016

What to Expect On-Site:

During the next two weeks, the General Contractor, Foulger-Pratt, will continue with receipt of material deliveries requiring heavy equipment accessing the site. Exterior construction, water & drainage piping, electric conduits & wiring, lighting, sprinkler piping, communications, security & fire alarm conduits & wiring, trash chutes, metal railings, gas & glycol piping, interior and exterior masonry, structural steel, elevators and HVAC ducts are being installed. Roofing installation is ongoing on A3. Wind screen metal framing is ongoing on the roof of A2. Blue-skin and gold coating exterior wall waterproofing is being installed.

Installation of the window receivers and window glass is ongoing in A1 and A2. The motorized scaffolding equipment for installation of the building's exterior facade has been erected along South Dakota Avenue, Galloway Street and along the drive aisle with the exterior masonry facade is ongoing in these locations. Swing stages and scaffolds are being used in the courtyards. Sheathing for exterior walls, the elevator and mechanical shaft walls, and interior metal wall framing is ongoing. Interior partition framing and door frame installation are ongoing. Elevator installation is ongoing. Cement Masonry Unit (CMU) wall construction is ongoing for electric and mechanical rooms, elevator shafts, demising walls and stairwells.

Pepco has started the work to provide permanent power to the site and put the existing electrical service, currently running overhead along South Dakota Avenue, underground.

The area of work for Building A is primarily bounded by South Dakota Avenue on the east, the Aventine buildings on the west, Galloway Street on the south, and what will be the new alignment of Ingraham Street on the north.

Construction Hours:

Initial construction activity will be taking place Monday – Saturday between the hours of 7 a.m. and 7 p.m.
