

Rehabilitation of Eastern Avenue NE

New Hampshire Avenue NE to Whittier Street NW

Eastern Avenue is a boundary street between Washington, DC and the state of Maryland. The District Department of Transportation (DDOT) is working to create a safer, more livable, sustainable and attractive corridor.

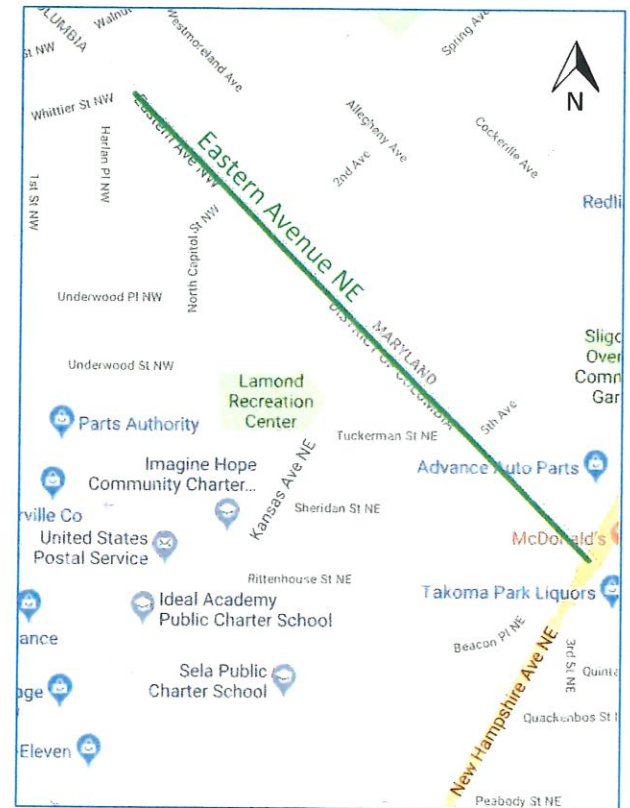

What is the objective of this project?

The project objective is to increase multi-modal (pedestrian, bicyclist and motorist) safety and to improve the corridor's appearance and functionality with new pavement and granite curbs; new sidewalks; addition of bicycle lanes; improved lighting; and new streetscape elements, while reducing vehicular speeds with curb extensions, signal upgrades and pavement markings.

What is DDOT planning to do?

DDOT is looking to integrate the following key elements into this project since the public meetings:

- Signal modifications and ADA improvements at the intersection of Eastern Avenue NE and New Hampshire Avenue NE
- Signal modifications and ADA improvements at the intersection of Eastern Avenue NE and Kansas Avenue NE
- New traffic signal and intersection reconfiguration at Eastern Avenue NE and Sligo Mill Road NE
- Full depth roadway reconstruction in place of resurfacing from Kansas Avenue NE to Sligo Mill Road NE
- Street lighting upgrade for the entire length of the project
- Granite curbs for the entire length of the project

When will DDOT conduct the work?

This project is currently in the design phase which has an anticipated completion of January 2021. The anticipated start of the construction phase is Summer 2021.

Where can I get more information on this project?

Please contact Stacey Hemby, Community Outreach at stacey@tbaconnects.com.
